

- **Custom Synthesis**
- **Contract Manufacturing**
- **CRAMS**

**Specialty Fine
Chemicals**

**Advanced
Intermediates**

Dynamic 10-year young
specialty chemical company.
Leverages the rich expertise of
its 50 year old group company,
Multi Organics.

**WE MANUFACTURE SPECIALTY FINE CHEMICALS,
MONOMERS, SPECIALITY POLYMERS, MATERIALS,
ADVANCE INTERMEDIATES AND KSMs (key starting
materials) FOR**

- Pharmaceuticals (API)
- Agrochemicals (AI)
- Electronic, Resins, Monomers, Lithography
- Colorants (Pigments, Dyes, Food Colors),
- Aviation and Paper.
- Oil / Petroleum Additives

**A 600+ strong dedicated team:
People, our greatest assets**

**50+ Global Chemical
Companies across 24 countries
are our customers**

**WE HAVE RICH EXPERIENCE
AT COMMERCIAL SCALE IN**

- Innovative Deep Chemistry, Efficient Process Design
- Safe, Reliable, Environmentally conscious Manufacturing
- Pushing Resource Efficiency to its highest limits
- Diverse Hazardous Chemistry
- High Purity products 4N / 99.99%+
- Ppb level metal control
- Possibly lowest cost manufacturing

INFRASTRUCTURE

- Dedicated Product plants for Bulk Intermediates [25000 MT/y capacity]
- 4 Multi-Purpose plants with 8 lines for Campaign production of Specialty Fine Chemicals Advanced R&D and QC Lab
- Pilot Plant / Scale-up Lab
- Process Engineering Lab

Flexible manufacturing solutions for your custom synthesis, contract manufacturing needs

PROCESS TECHNOLOGY / R&D + ANALYTICAL CAPABILITIES

- Flow Chemistry / Micro Reactors
- Gas-Liquid-Solid Dynamic Phase Continuous Reactions
- Vapour Phase Reactions
- Continuous Reactions
- Polymerization
- High Temp / High Pressure Reactions
- Catalysis
- Chiral Chemistry
- Complex, multi-step chemical syntheses
- Analytical Method Development, Calibration and Validation
- Structural Identification and Elucidation

Your go-to partner for CDMO, Custom Synthesis and Contract Manufacturing Services in India
